

Dear Colleagues:

Welcome to the 9th Annual Duck Family Graduate Workshop on Environmental Politics and Governance organized by the Center for Environmental Politics at University of Washington. We are delighted to host an impressive multi-disciplinary gathering of graduate students working on environmental policy, politics, and governance issues.

The Center's vision is to play a leadership role in producing and disseminating state of the art empirical research on environmental politics, policy, and governance at local, regional, national, and global levels. The Center's 40 Faculty Associates are leaders in their fields, 26 Graduate Fellows are working on exciting doctoral projects, and 20 undergraduate fellows are engaged in independent research. Within the University of Washington, we facilitate faculty and graduate students to build connections, establish networks, and initiate truly multidisciplinary conversations about the governance, political, and institutional dimensions of environmental challenges. Externally, we are at the forefront of creating and nurturing a community of scholars committed to theoretically informed and empirically rigorous research on environmental politics, policy, and governance.

This workshop reflects the vision of Gary and Susan Duck to create a vibrant intellectual community of emerging scholars studying environmental issues. Susan Duck is not with us anymore. Yet, her spirit and commitment to learning continues to inspire us.

Aseem Prakash

Aseem Prakash

Professor, Department of Political Science
Walker Family Professor for the College of Arts and
Sciences Founding Director, Center for Environmental
Politics University of Washington, Seattle

This 2023 Graduate Workshop on Environmental Politics and Governance has been made possible by the support of Gary and Susan Duck.

Susan Duck came to University of Washington from the Los Angeles area to attend graduate school in the School of Social Work. While there she was introduced to Gary through mutual friends. They settled in Los Angeles after both graduated. She very much appreciated the training she received at UW School of Social Work and had a varied and rewarding career as a clinical social worker. She was a psychotherapist for several years, and later worked several years in a hospital setting within the home health and hospice fields.

Gary A. Duck, who received his Ph.D. in political science from the University of Washington in 1973, engaged in a diverse set of professional pursuits after completing his graduate studies. Under contract with the U.S. Department of Education, he served as an associate research analyst to assess the effectiveness of K-12 public education programs throughout the U.S. Gary then served as an executive responsible for information technology services for a satellite company and subsequently for an energy company. Twenty years ago he, along with his son Stephen, established an investment management company, with offices in Los Angeles and Santa Fe. He retired December 2016.

After leaving UW, Gary and Susan became enthusiastic supporters of Political Science and the School of Social Work by making regular donations in support of students who followed after them.

In 2019, the Department of Political Science selected Gary Duck for its annual Distinguished Alumni Award that "recognizes department alumnus or alumna with remarkable career accomplishments and who can serve as a role model for current political science students".

Wednesday, May 10

Venue: Walker Ames Room

4:30 - 6:00 PM

Welcome Event

Welcome to the 2023 Duck Family Workshop
